

Lexington Bicycle Data: Usage and Maintenance

This Guide Prepared by the LFUCG Division of Planning, L. Weaver (2019.03.29)

Accessing Bicycle Data

Determine which data source you need to access using the “Which Feature Class Should People/Products Use?” diagram:

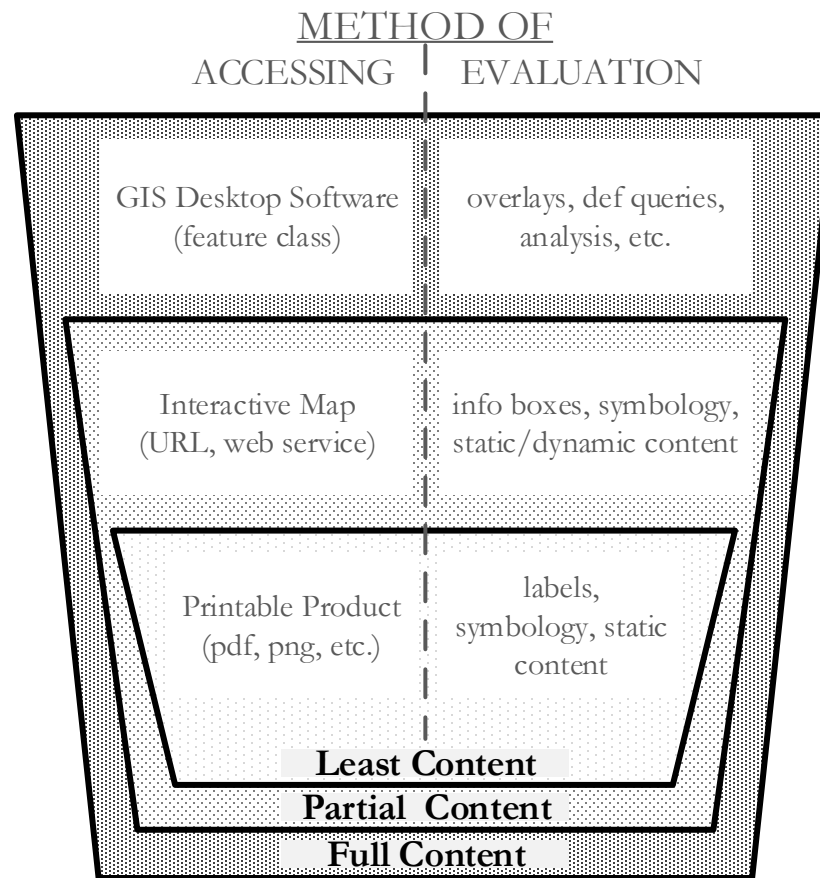

Master Enterprise Feature Class:

1. Obtain access to the LFUCG enterprise database
2. Using GIS software, connect to “GIS_master.sde”
3. Navigate to the “Planning” dataset
4. Locate the “Bicycle Network” feature class
5. Enjoy!

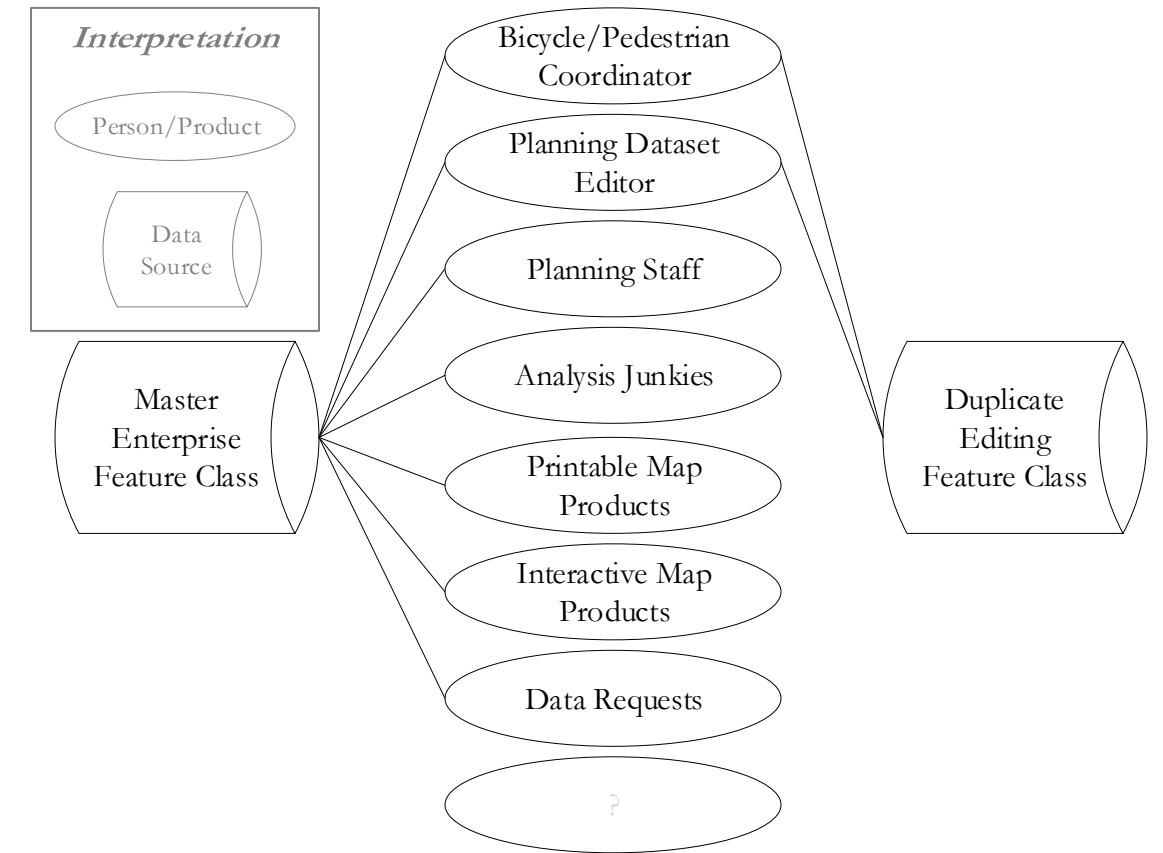

Duplicate Editing Feature Class:

1. Obtain access to the editing geodatabase, if appropriate
2. Navigate to the folder location:
G:\1_Transportation Planning\1_Bike&Ped\GIS\For GIS Enterprise Data
3. Navigate to the feature class:
EnterpriseEditing.gdb | Planning | BicycleNetwork_EditingDuplicate
4. Edit as needed
5. Follow the workflow below to sync edits with enterprise
